"From an IT perspective, Ansarada ticked all the boxes. Once we pressed the go live button, I didn't hear about it again – which speaks volumes!"

Peter Campbell, CIO, Sparke Helmore

"Providing and controlling access to the volumes of Investa due diligence material for Morgan Stanley and their extensive team of globally-dispersed advisors required a specialist solution. Ansarada was able to simplify the process by providing a data room tailored with features to meet our exact requirements."

Michelle Dance, Group Executive, Corporate Finance Investa Property Group

"In traditional due diligence rooms, documents had to be physically stored in one place but with an electronic data room they are available online to all groups simultaneously, which encourages a fast and efficient deal flow."

Special Counsel, Sparke Helmore

"Ansarada's pricing structure is one of its greatest benefits. By allowing us to add users at any time, Ansarada is more cost effective and easy to administer than other online data rooms, which limit the amount of bidders with their per user costs."

Executive Corporate Finance, KPMG

"We looked at Ansarada's security features and liked its simple to use, multi-layered approach. Ansarada had the security we needed for this particular property deal, and the capability to scale up and down as needed for future transactions."
